Logo Concepts

I built variants of different logos by using different shapes and ideas. Wanting to incorporate mountains, luxury, and longevity, I researched long term designs to show high end, down-to-earth experiences.

Concept: Mountain

Utilizing a bottom heavy equalateral triangle, I considered the foundation of the mountain, generational growth, and simplicity of the project. This design also utilizes a similar "R" concept that the current logo contains.

Concept: Circular Balance

Going with a little more detail that can be simplified, I went towards the circular design. With a soft touch into the balance similar to the Yin-Yang symbol, this generates the consideration of nature and civilization committing to a delicate dance.

Concept: Square Luxury

Looking into long term designs, I noticed the logos were large lettering that remains iconic to this day. Thinking along this line, I kept the boldness of the letters to contrast with the thin lines of the name itself.

To keep the visuals easy to read, simple and bold, I kept to a nostalgic yet timeless font.

Staying in the bold spotlight, and to add some heft in the brand, I used this to add weight into the design.

Accent Palette

The palette contains inspiration from the mountain range. Avoiding polished looks, the designs should appear natural. Utilizing the green and blue as accents round out the feelings of emotions and longevity. Seasonal options are available such as emphasis on greens in the summer time.
